

***Colquitt County School District***  
**Title I Parent Notification of Student Eligibility for**  
**Supplemental Language Support Services**

Student Name: \_\_\_\_\_

Date: \_\_\_\_\_

Dear Parents:

As a student in our school district's "English to Speakers of Other Languages" (ESOL) program, your child receives effective language instruction from an ESOL teacher. As an English Learner, your child also qualifies for additional supports that we offer to help improve his/her English skills. When your child exits from the state ESOL program, we will also exit your child from these extra language services.

Your child's English skill was most recently tested with the: WIDA Screener for Kindergarten, WIDA Grades 1-12 Screener® or ACCESS for ELLs 2.0® and received an overall score of \_\_\_\_\_. Scores lower than 5 qualify a child to be placed in the ESOL program. We offer the additional supports below to help improve your child's listening, speaking, reading and writing skills in English as well as support his or her academic needs. For high school students who receive these additional supports, the graduation rate was 74.5% in 2021. Please note that if your child has a disability, his/her language program services are developed together with special education staff and they support your child's Individualized Education Program (IEP).

For those students in grades K-7 we offer a software program called Imagine Learning. Imagine Language and Literacy is a strategic, research-based curriculum that meets students at their own level. With Imagine Language & Literacy, every child receives explicit, targeted instruction within an individualized learning path that continually adjusts to their needs. Over 4,300 engaging activities teach critical language and literacy concepts such as reading and listening comprehension, basic vocabulary, academic language, grammar, phonological awareness, phonics, and fluency. Kids love the program because it's fun and challenging. And educators trust the program because it's differentiated, standards-aligned, rigorous, and effective. For more information, visit <https://www.imaginelearning.com/literacy/language-and-literacy>.

For students in grades 8-12 we offer a software program called Rosetta Stone. Rosetta Stone is dedicated to changing people's lives through the power of language and literacy education. The company's innovative digital solutions drive positive learning outcomes for the inspired learner at home or in schools and workplaces around the world. Rosetta Stone's language division uses cloud-based solutions to help all types of learners read, write, and speak more than 30 languages. Students can learn anywhere. These language learning solutions enable both students and educators to access language lessons and activities virtually. That way, any moment can become a teachable one. Rosetta Stone is a part of Cambium Learning® Group, the education essentials company. For more information, visit <https://www.rosettastone.com>.

We also provide supplemental educational games, books, periodicals, equipment, supplies, and web-based subscriptions including Scholastic Action, Junior Scholastic and BrainPOP (which has access to over one thousand standards-aligned topics to build background and deepen learning across the curriculum, SEL-themed topics, and embedded creative and computational projects).

You have the right to refuse these additional supports for your child. If you would like to decline participation for your child, talk about the different supports offered, or learn about parent meetings, please contact the person whose name, phone number, and e-mail are listed below. Thank you.
