

Comprehensive Needs Assessment 2023 - 2024 School Report

Colquitt County Norman Park Elementary School

1. PLANNING AND PREPARATION

1.1 Identification of Team

The comprehensive needs assessment team consists of people who are responsible for working collaboratively throughout the needs assessment process. Ideal team members possess knowledge of programs, the capacity to plan and implement the needs assessment, and the ability to ensure stakeholder involvement. A required team member's name may be duplicated when multiple roles are performed by the same person. Documentation of team member involvement must be maintained by the LEA. Watch the <u>Planning and Preparation webinar</u> for additional information and guidance.

Leadership Team

	Position/Role	Name
Team Member # 1	Principal	Michelle Daniels
Team Member # 2	Assistant Principal	Aimee Moore
Team Member # 3	Academic Coach	Amber Glasgow
Team Member # 4	Second Grade Teacher	Brittany Beck
Team Member # 5	Fifth Grade Teacher	Jennifer Key
Team Member # 6	3rd Grade Teacher	Celia Thompson
Team Member # 7	Special Education Teacher	Wendy Stuckey

Additional Leadership Team

	Position/Role	Name
Team Member # 1	ESOL Teacher	JoBeth Key
Team Member # 2		
Team Member # 3		
Team Member # 4		
Team Member # 5		
Team Member # 6		
Team Member # 7		
Team Member # 8		
Team Member # 9		
Team Member # 10		

1. PLANNING AND PREPARATION

1.2 Identification of Stakeholders

Stakeholders are those individuals with valuable experiences and perspective who will provide the team with important input, feedback, and guidance. Required stakeholders must be engaged in the process to meet the requirements of participating federal programs. Documentation of stakeholder involvement must be maintained by the LEA. Watch the <u>Planning and Preparation</u> webinar for additional information and guidance.

Stakeholders

	Position/Role	Name
Stakeholder # 1	Local School Governance Team Member	Lia Baker
Stakeholder # 2	Local School Governance Team Member	Jarod Roberts
Stakeholder # 3	Local School Governance Team Member	Jessie Ray
Stakeholder # 4	Local School Governance Team Member	Rhonda Kelley
Stakeholder # 5		
Stakeholder # 6		
Stakeholder # 7		
Stakeholder # 8		

How will the team ensure that stakeholders,	Stakeholders are given numerous opportunities to provide feedback. Parent
and in particular parents and/or guardians,	surveys, feedback sessions, and parent meetings are used to take input from
were able to provide meaningful input into	our various stakeholders. Our parent involvement coordinator schedules
the needs assessment process?	activities throughout the school year that allows parents to receive information
_	about the school instructional program, parent/family involvement
	opportunities, and feedback session. This allows our school to seek input and
	information about needs that face our students and families. The Local School
	Governance Team is also utilized as a resource to help with the needs
	assessment process. This group allows stakeholders to directly communicate
	with the school's administration and its instructional staff and provide input
	on needs and direct concerns about the school and its instructional program.

2. DATA COLLECTION ANALYSIS

2.1 Coherent Instructional System

Analyze the LEA's data (including sections 2.6) and answer the guiding questions to determine existing trends and patterns that support the identification of instructional needs. Complete a data-informed self-rating for each Georgia School Performance Standard (GSPS). See the <u>Coherent Instructional System webinar</u> for additional information and guidance.

Curriculum Standard 1 -Uses systematic, collaborative planning processes so that teachers share an understanding of expectations for standards, curriculum, assessment, and instruction		
1. Exemplary	A systematic, collaborative process is used proactively for curriculum planning.	
	Nearly all teachers or groups of teachers, support staff, and leaders within the school have common expectations for standards, curriculum, assessment, and instruction.	
2. Operational	A systematic, collaborative process is used regularly for curriculum planning.	√
	Most teachers or groups of teachers within the school have common expectations for standards, curriculum, assessment, and instruction.	
3. Emerging	A collaborative process is used occasionally for curriculum planning.	
	Some teachers or groups of teachers within the school have common expectations for standards, curriculum, assessment, and instruction.	
4. Not Evident	A collaborative process is rarely, if ever, used for curriculum planning.	
	Few, if any, teachers or groups of teachers within the school have common expectations for standards, curriculum, assessment, and instruction.	

Curriculum Standard 2 -Designs curriculum documents and aligns resources with the intended rigor of the requir standards		
1. Exemplary	Curriculum documents (e.g., lesson plans, unit plans, performance tasks, curriculum maps, scope, and sequence documents, guides) that are aligned with the intended rigor of the required standards are the products of a systematic, collaborative process. These curriculum documents and resources are used and continuously revised by teachers and support staff to ensure an alignment with the intended, taught, and tested standards.	
2. Operational	Curriculum documents (e.g., lesson plans, unit plans, performance tasks, curriculum maps, scope and sequence documents, guides) have been designed, and resources are aligned with the intended rigor of the required standards. These curriculum documents and resources guide the work of teachers and instructional support staff.	V
3. Emerging	Curriculum documents and resources exist, but they are not complete in all content areas or grade levels or lack the intended rigor of the required standards.	
4. Not Evident	Few, if any, curriculum documents and resources exist to support the implementation of the intended rigor of the required standards.	

Instruction Standard 1 - Provides a supportive and well -managed environment conducive to learning		
1. Exemplary	A supportive and well-managed environment conducive to learning is evident throughout the school.	~
	Students consistently stay on-task and take responsibility for their own actions.	
2. Operational	A supportive and well-managed environment conducive to learning is evident in most classrooms.	
3. Emerging	A supportive and well-managed environment conducive to learning is evident in some classrooms.	
4. Not Evident	A supportive and well-managed environment conducive to learning is evident in few, if any, classrooms.	

Instruction Standard 2 -Creates an academically challenging learning environment		
1. Exemplary	Nearly all teachers create an academically challenging, learning environment (e.g., higher-order thinking skills and processes, active student engagement, relevance, collaboration). Students consistently work independently and in teams to solve real-world problems that require advanced effort, decision-making, and critical and creative thinking.	
2. Operational	Most teachers create an academically challenging, learning environment (e.g., higher-order thinking skills and processes, active student engagement, relevance, collaboration).	~
3. Emerging	Some teachers create an academically challenging learning environment.	
4. Not Evident	Few, if any, teachers create an academically challenging learning environment.	

Instruction Standard 3 -Establishes and communicates clear learning targets and success criteria aligned to curri standards		iculum
1. Exemplary	Nearly all teachers establish and communicate clear learning targets and success criteria aligned to the required curriculum standards. Learning targets are evident throughout the lesson and in student work. Articulation of the learning targets is consistent and pervasive among like content areas and grade levels.	
2. Operational	Most teachers establish and communicate clear learning targets and success criteria aligned to the required curriculum standards. Learning targets are evident throughout the lesson and in student work.	~
3. Emerging	Some teachers establish and communicate clear learning targets and success criteria aligned to the required curriculum standards.	
4. Not Evident	Few, if any teachers establish clear learning targets and success criteria aligned to the required curriculum standards.	

Instruction Standard 4 -Uses research based instructional practices that positively impact student learning		
1. Exemplary	Nearly all teachers pervasively demonstrate a repertoire of highly effective, research-based instructional practices that positively impact student learning (e.g., providing feedback, cooperative learning, advance organizers, questioning techniques, similarities and differences, reinforcing effort, goal setting, summarizers, graphic representations, reciprocal teaching).	
2. Operational	Most teachers demonstrate a repertoire of effective, research-based instructional practices that positively impact student learning (e.g., providing feedback, cooperative learning, advance organizers, questioning techniques, similarities and differences, reinforcing effort, goal setting, summarizers, graphic representations, reciprocal teaching).	~
3. Emerging	Some teachers demonstrate a repertoire of effective, research-based instructional practices that positively impact student learning.	
4. Not Evident	Few, if any, teachers demonstrate a repertoire of effective, research-based instructional practices that positively impact student learning.	

Instruction Standard 5 -Differentiates instruction to meet specific learning needs of students		
1. Exemplary	Nearly all teachers differentiate instruction (e.g., using flexible grouping, making adjustments, providing choices based upon readiness levels, interests, or needs) to meet the specific learning needs of students. Nearly all teachers plan and implement multiple means of representation, engagement, action, and expression to meet the learning needs of students (UDL). Remediation, enrichment, and acceleration are pervasive practices.	
2. Operational	Most teachers differentiate instruction (e.g., using flexible grouping, making adjustments, providing choices based upon readiness levels, interests, or needs) to meet the specific learning needs of students. Most teachers plan and implement multiple means of representation, engagement, action, and expression to meet the learning needs of students (UDL).	1
3. Emerging	Some teachers differentiate instruction to meet the specific learning needs of students.	
4. Not Evident	Few, if any, teachers differentiate instruction to meet the specific learning needs of students.	

Instruction Standard 6 - Uses appropriate, current technology to enhance learning		
1. Exemplary	The use by staff members and students of appropriate, current technology to enhance learning is an institutional practice (e.g., facilitate communication, collaboration, research, design, creativity, problem-solving).	
2. Operational	Most staff members and students use appropriate, current technology to enhance learning (e.g., facilitate communication, collaboration, research, design, creativity, problem-solving).	√
3. Emerging	Some staff members, students, or both use appropriate, current technology to enhance learning.	
4. Not Evident	Few, if any, teachers demonstrate a repertoire of effective, research-based instructional practices that positively impact student learning.	

Instruction Standard 7 - Provides feedback to students on their performance on the standards or learning targets		
1. Exemplary	Nearly all teachers use the language of the standards or learning targets to provide students with specific, timely, descriptive feedback on their performance. Nearly all teachers systematically elicit diagnostic information from individual	
	students regarding their understanding of the standards or learning targets.	
2. Operational	Most teachers use the language of the standards or learning targets to provide students with specific, timely, descriptive feedback on their performance.	
3. Emerging	Some teachers use the language of the standards or learning targets to provide students with specific, descriptive feedback on their performance.	\checkmark
4. Not Evident	Few, if any, teachers use the language of the standards or learning targets to provide students with feedback on their performance, or the feedback that is provided is not specific, timely, or understandable.	

Instruction Standard 8 -Establishes a learning environment that empowers students to actively monitor their own		
1. Exemplary	Nearly all students use tools (e.g., rubrics, checklists, exemplars) to actively monitor	
	their own progress.	
	Nearly all students develop a sense of personal responsibility and accountability by	
	engaging in record keeping, self-monitoring, sharing, exhibiting, and self-reflection.	
2. Operational	Most students use tools (e.g., rubrics, checklists, exemplars) to actively monitor their	
	own progress.	
3. Emerging	Some students use tools to actively monitor their own progress.	\checkmark
4. Not Evident	Few, if any, students use tools to actively monitor their own progress.	

Instruction Standard 9 - Provides timely, systematic, data -driven interventions		
1. Exemplary	Nearly all students are provided timely, systematic, data-driven interventions to support their learning needs. Interventions are designed to meet the needs of each student. The effectiveness of those interventions is consistently monitored and adjustments are made.	
2. Operational	Most students are provided timely, systematic, data-driven interventions to support their learning needs.	√
3. Emerging	Some students are provided extra assistance or needed support in a timely manner.	
4. Not Evident	Few, if any, students are provided extra assistance or effective support in a timely manner.	

Assessment Standard 1 - Aligns assessments with the required curriculum standards		
1. Exemplary	Nearly all assessments are aligned with the required curriculum standards.	
	Assessments are reviewed during the school year to ensure alignment.	
2. Operational	Most assessments are aligned with the required curriculum standards.	
3. Emerging	Some assessments are aligned with the required curriculum standards.	\checkmark
4. Not Evident	Few, if any, assessments are aligned with the required curriculum standards.	

	Assessment Standard 3 -Uses common assessments aligned with the required standards to monitor student progress, info instruction, and improve teacher practices	
1. Exemplary	Teachers consistently use common assessments aligned with the required standards in nearly all content areas, grade levels, or both for diagnostic, summative, and formative purposes. The data from the common assessments are analyzed down to the item level, and the	
	results are used to inform instruction and improve teacher practices.	
2. Operational	Teachers use common assessments aligned with the required standards in most content areas to monitor student progress, inform instruction, and improve teacher practices.	\checkmark
3. Emerging	Teachers use some common assessments aligned with the required standards in a few content areas with a limited amount of data analysis to monitor student progress, inform instruction, or improve teacher practices.	
4. Not Evident	Teachers use few, if any, common assessments to monitor student progress, inform instruction, or improve teacher practices.	

Assessment Standard 4 - Implements a process to collaboratively analyze assessment results to adjust instruction		
1. Exemplary	Teachers extensively use a systematic, collaborative process to analyze assessment	
	results.	
	Instruction is consistently adjusted based on the analysis of assessment results across	
	all content areas, grade levels, or both.	
2. Operational	Teachers regularly use a collaborative process to analyze assessment results.	
	Instruction is routinely adjusted based on the analysis of assessment results.	
3. Emerging	Teachers occasionally use a collaborative process to analyze assessment results.	√
	Instruction is sometimes adjusted based on the analysis of assessment results.	
4. Not Evident	A collaborative process to analyze assessment results does not exist.	
	Instruction is rarely, if ever, adjusted based on the analysis of assessment results.	

Assessment Standard 5 -Implements grading practices that provide an accurate indication of student progress on required standards		n the
1. Exemplary	The grading practices used by teachers across nearly all content areas, grade levels, or both, consistently provide an accurate indication of student progress on the required standards.	
2. Operational	The grading practices used by teachers in most content areas, grade levels, or both provide an accurate indication of student progress on the required standards.	
3. Emerging	The grading practices used by teachers in some content areas, grade levels, or both provide an accurate indication of student progress on the required standards.	√
4. Not Evident	The grading practices used by teachers rarely, if ever, provide an accurate indication of student progress on the required standards.	

2. DATA COLLECTION ANALYSIS

2.2 Effective Leadership

Analyze the LEA's data (including sections 2.6) and answer the guiding questions to determine existing trends and patterns that support the identification of leadership needs. Complete a data-informed self-rating for each Georgia School Performance Standard (GSPS). See the Effective Leadership webinar for additional information and guidance.

Leadership Standard 1 -Builds and sustains relationships to foster the success of students and staff		
1. Exemplary	Administrators consistently build and sustain relationships to foster the success of students and staff. The school staff is fully engaged in relationship building through collaboration, internal and external communication, and building trust with staff, students, families, and community stakeholders.	√
2. Operational	Administrators regularly build and sustain relationships to foster the success of students and staff.	
3. Emerging	Administrators sometimes build relationships to foster the success of students and staff.	
4. Not Evident	Administrators seldom, if ever, build relationships to foster the success of students and staff.	

Leadership Standard 2 -Initiates and manages change to improve staff performance and student learning		
1. Exemplary	 Administrators, the school leadership team, and other teacher leaders initiate and sustain change to improve staff performance and student learning. Administrators, the school leadership team, and other teacher leaders create a sense of urgency for change and effectively communicate a common vision. 	V
2. Operational	 Administrators and the school leadership team initiate and sustain change to improve staff performance and student learning. The principal provides an appropriate balance of pressure and support to manage the change process for desired results. 	
3. Emerging	Administrators initiate change to improve staff performance and student learning but do not sustain the change, remove barriers, or both.	
4. Not Evident	Administrators initiate few, if any, changes that impact staff performance and student learning.	

1. Exemplary	The principal and other school leaders continually use systems to ensure effective implementation of curriculum, assessment, instruction, and professional learning practices.	~
	The principal and other school leaders have a comprehensive knowledge and understanding of the best practices for curriculum, assessment, instruction, and professional learning.	
2. Operational	The principal and other school leaders often use systems to ensure effective implementation of curriculum, assessment, instruction, and professional learning practices.	
3. Emerging	The principal and other school leaders occasionally use systems to ensure effective implementation of curriculum, assessment, instruction, and professional learning practices.	
4. Not Evident	The principal and other school leaders rarely, if ever, use systems to ensure effective implementation of curriculum, assessment, instruction, and professional learning practices.	

Leadership Standard 4 -Uses processes to systematically analyze data to improve student achievement		
1. Exemplary	Extensive, comprehensive processes, including root cause analysis, are used	
	consistently to analyze data (e.g., multiple sources of data: classroom, grade level, departmental, and subgroup, perception data) to improve student achievement.	
2. Operational	Numerous processes are used frequently to analyze data (e.g., multiple sources of data: classroom, grade level, departmental, and subgroup, perception data) to improve student achievement.	
3. Emerging	Some processes are in place and used occasionally to analyze data to improve student achievement.	√
4. Not Evident	Few, if any, processes are in place to analyze data to improve student achievement.	

Leadership Standard 5 -Builds leadership capacity through shared decision-making and problem-solving		
1. Exemplary	Extensive structures exist for staff to engage in shared decision-making and problem-solving and to build their leadership capacities.	
	Administrators collaborate consistently with staff members to gather input.	
2. Operational	Numerous structures exist for staff to engage in shared decision-making and problem-solving and to build their leadership capacities.	
3. Emerging	Some structures exist for staff to engage in shared decision-making, problem-solving, or both.	\checkmark
4. Not Evident	Few, if any, structures exist for staff to engage in shared decision-making or problem-solving.	

Leadership Standard 6 -Establishes and supports a data-driven school leadership team that is focused on student learning		
1. Exemplary	 A highly effective, proactive, and data-driven school leadership team is focused on student learning. The leadership team addresses nearly all areas of student and staff learning and school leadership, including the development, implementation, and regular monitoring of the school improvement plan. 	
2. Operational	A data-driven school leadership team is established with stakeholder representation (e.g., core and non-core teachers, certified support staff) and is focused on student learning. The school leadership team meets regularly and uses norms and protocols to work effectively and efficiently.	✓
3. Emerging	The school leadership team is established and has some stakeholder representation but is focused chiefly on school operations rather than student learning.	
4. Not Evident	A school leadership team does not exist or does not have adequate stakeholder representation.	

Leadership Standard	7 -Monitors and evaluates the performance of teachers and other staff using multiple datas	sources
1. Exemplary	Monitoring the performance of teachers and other staff through observations, surveys, data, and documentation is consistent and comprehensive, resulting in highly accurate performance evaluations.	
	A comprehensive system is in place to provide teachers and staff with ongoing, accurate, timely, detailed, descriptive feedback related to their performance.	
	Administrators use the evaluation process to identify role models, teacher leaders, or both.	
2. Operational	 Monitoring the performance of teachers and other staff regularly occurs using data or documentation, generally resulting in accurate performance evaluations. Teachers and staff receive accurate, timely, descriptive feedback related to their performance. 	V
3. Emerging	Monitoring the performance of teachers and other staff is inconsistent, incomplete, or lacks data or documentation, sometimes resulting in inaccurate performance evaluations. Teachers and staff receive some descriptive feedback related to their performance.	
4. Not Evident	Monitoring the performance of teachers and other staff rarely occurs or often results in inaccurate performance evaluations.	
	Teachers and staff receive little or no descriptive feedback related to their performance.	

Leadership Standard 8 - Provides ongoing support to teachers and other staff		
1. Exemplary	A comprehensive support system that is timely and targeted to individual needs is	
	provided to teachers and other staff.	
2. Operational	Most support provided to teachers and other staff is targeted to individual needs.	\checkmark
3. Emerging	Some support provided to teachers and staff is targeted to individual needs.	
4. Not Evident	Support to teachers and staff does not exist or is not targeted to individual needs.	

	Planning and Organization Standard 1 -Shares a common vision and mission that define the school culture and guide the continuous improvement process		
1. Exemplary	A common vision and mission have been collaboratively developed and communicated to nearly all stakeholders. The culture of the school has been deeply defined over time by the vision and mission, which are updated as needed. The daily work and practices of staff consistently demonstrate a sustained	V	
	commitment to continuous improvement.		
2. Operational	A common vision and mission have been developed through a collaborative process and communicated to most stakeholders. The vision and mission define the culture of the school and guide the continuous		
	improvement process.		
3. Emerging	A common vision and mission have been developed by some staff members but have not been effectively communicated so that they guide the continuous improvement process.		
4. Not Evident	A common vision and mission have not been developed or updated or have been developed by a few staff members.		

	Planning and Organization Standard 2 -Uses a data-driven and consensus-oriented process to develop and implement a school improvement plan that is focused on student performance		
1. Exemplary	A school improvement plan has been developed using a data-driven and consensus-oriented process with input from nearly all stakeholders.	~	
	The plan includes appropriate goals and strategies with a strong focus on increasing student performance.		
	This process and plan consistently guide the work of the school staff.		
2. Operational	A school improvement plan has been developed using a data-driven and consensus-oriented process with input from most plan stakeholders. The plan includes appropriate goals and strategies with a focus on increasing student performance.		
3. Emerging	A school improvement plan has been developed with input from some stakeholders. The school improvement plan is based on incomplete data analysis with limited focus on student performance.		
4. Not Evident	An up-to-date, data-driven school improvement plan focused on student performance is not in place.		

Planning and Organ as needed	ization Standard 3 -Monitors implementation of the school improvement plan and makes a	adjustments
1. Exemplary	 The goals and strategies of the school improvement plan are continually monitored by administrators, the school leadership team, and teacher leaders to evaluate the impact on student performance. Ongoing adjustments are made based on various performance, process, and perception data. 	V
2. Operational	 he goals and strategies of the school improvement plan are regularly monitored by administrators and the school leadership team to evaluate the impact on student performance. Adjustments are made to the plan, as needed, based on the analysis of data. 	
3. Emerging	The goals and strategies of the school improvement plan are occasionally monitored by administrators.	
4. Not Evident	The goals and strategies of the school improvement plan are rarely, if ever, monitored.	

Planning and Organization Standard 4 -Monitors the use of available resources to support continuous improvement		
1. Exemplary	The use of available resources (e.g., personnel, time, facilities, equipment, materials) to support continuous improvement is consistently monitored. School schedules and processes are designed to make effective use of personnel, time, materials, and equipment.	V
2. Operational	The use of available resources (e.g., personnel, time, facilities, equipment, materials) to support continuous improvement is frequently monitored.	
3. Emerging	The use of available resources to support continuous improvement is inconsistently monitored.	
4. Not Evident	The use of available resources to support continuous improvement is rarely, if ever, monitored.	

	Planning and Organization Standard 5 -Develops, communicates, and implements rules, policies, schedules, and proced to maximize student learning and staff effectiveness		
1. Exemplary	 Rules, policies, schedules, and procedures are developed with stakeholder input, effectively communicated, and consistently implemented throughout the school to maximize student learning and staff effectiveness. These rules, policies, schedules, and procedures are consistently reviewed and revised as needed. 	V	
2. Operational	Rules, policies, schedules, and procedures are developed, communicated, and implemented throughout the school to maximize student learning and staff effectiveness. These rules, policies, schedules, and procedures are periodically reviewed and systematically revised as needed.		
3. Emerging	Rules, policies, schedules, and procedures are developed but are not effectively communicated or are implemented inconsistently across the school.		
4. Not Evident	Rules, policies, or procedures are not developed, are poorly communicated, or are ineffectively implemented. In some cases, rules, policies, schedules, or procedures are out of date or have become barriers to student learning or staff effectiveness.		

	Planning and Organization Standard 6 -Uses protocols to maintain the school campus and equipment providing a safe, clean, and inviting learning environment	
1. Exemplary	 Protocols (e.g., safety drills, tornado drills, inclement weather plans, current crisis plan, school-wide safety plan, maintenance protocols, facility-use protocols, functional custodial schedules) are used extensively to maintain the school campus and equipment providing a safe, clean, and inviting learning environment. A proactive maintenance process is in place, and repairs are completed in a satisfactory and timely manner, when needed. 	V
2. Operational	 Protocols (e.g., safety drills, tornado drills, inclement weather plans, current crisis plan, school-wide safety plan, maintenance protocols, facility-use protocols, functional custodial schedules) are used to maintain the school campus and equipment providing a safe, clean, and inviting learning environment. The school and campus are clean, well-maintained, inviting, and safe. 	
3. Emerging	Protocols are sometimes used to maintain the school campus and equipment. The school and campus are partially clean, maintained, and inviting, but some safety issues exist.	
4. Not Evident	Protocols do not exist or are rarely, if ever, used to maintain the school campus and equipment. The school and campus are not clean, maintained, or inviting, and safety issues exist.	

2. DATA COLLECTION ANALYSIS

2.3 Professional Capacity

Analyze the LEA's data (including sections 2.6) and answer the guiding questions to determine existing trends and patterns that support the identification of professional capacity needs. Complete a data-informed self-rating for each Georgia School Performance Standard (GSPS). See the <u>Professional Capacity webinar</u> for additional information and guidance.

Leadership Standard 5 -Builds leadership capacity through shared decision-making and problem-solving		
1. Exemplary	Extensive structures exist for staff to engage in shared decision-making and problem-solving and to build their leadership capacities.	
	Administrators collaborate consistently with staff members to gather input.	
2. Operational	Numerous structures exist for staff to engage in shared decision-making and problem-solving and to build their leadership capacities.	√
3. Emerging	Some structures exist for staff to engage in shared decision-making, problem-solving, or both.	
4. Not Evident	Few, if any, structures exist for staff to engage in shared decision-making or problem-solving.	

Professional Learning S	Professional Learning Standard 1 - Aligns professional learning with needs identified through analysis of a variety of data		
1. Exemplary	Professional learning needs are identified and differentiated through a collaborative analysis process using a variety of data (e.g., student achievement data, examination of student work, process data, teacher and leader effectiveness data, action research data, perception data from students, staff, and families). Ongoing support is provided through differentiated professional learning.	✓	
2. Operational	Professional learning needs are identified through a collaborative analysis process using a variety of data (e.g., student achievement data, examination of student work, process data, teacher and leader effectiveness data, action research data, perception data from students, staff, and families).		
3. Emerging	Professional learning needs are identified using limited sources of data.		
4. Not Evident	Professional learning needs are identified using little or no data.		

Professional Learning Standard 2 -Establishes a culture of collaboration among administrators and staff to enhance individual and collective performance		ince
1. Exemplary	 Administrators and staff, as a foundational practice, consistently collaborate to support leadership and personal accountability and to enhance individual and collective performance (e.g., construct knowledge, acquire skills, refine practice, provide feedback). Teachers conduct action research and assume ownership of professional learning processes. 	
2. Operational	Administrators and staff routinely collaborate to improve individual and collective performance (e.g., construct knowledge, acquire skills, refine practice, provide feedback).	√
3. Emerging	Administrators and staff sometimes collaborate to improve individual and collective performance.	
4. Not Evident	Administrators and staff rarely collaborate to improve individual and collective performance.	

Professional Learning Standard 3 -Defines expectations for implementing professional learning		
1. Exemplary	Administrators, teacher leaders, or both consistently define expectations for the implementation of professional learning, including details regarding the stages of	
	implementation and how monitoring will occur as implementation progresses.	
2. Operational	Administrators, teacher leaders, or both regularly define expectations for the implementation of professional learning.	√
3. Emerging	Administrators, teacher leaders, or both occasionally define expectations for the implementation of professional learning.	
4. Not Evident	Administrators, teacher leaders, or both rarely, if ever, define expectations for the implementation of professional learning.	

Professional Learni staff	Professional Learning Standard 4 -Uses multiple professional learning designs to support the various learning needs of the staff	
1. Exemplary	 Staff members actively participate in job-embedded professional learning that engages collaborative teams in a variety of appropriate learning designs (e.g., collaborative lesson study, analysis of student work, problem solving sessions, curriculum development, coursework, action research, classroom observations, online networks). Professional learning includes extensive follow-up with descriptive feedback and coaching. 	
2. Operational	Staff members actively participate in professional learning, most of which is job-embedded, which includes multiple designs (e.g., collaborative lesson study, analysis of student work, problem-solving sessions, curriculum development, coursework, action research, classroom observations, online networks) to support their various learning needs. Professional learning includes follow-up with feedback and coaching.	V
3. Emerging	Some staff members are engaged in professional learning that makes use of more than one learning design to address their identified needs.	
4. Not Evident	Staff members receive single, stand-alone professional learning events that are informational and mostly large-group presentation designs.	

Professional Learni learning	ng Standard 5 -Allocates resources and establishes systems to support and sustain effective p	professional
1. Exemplary	 Extensive resources (e.g., substitute teachers, materials, handouts, tools, stipends, facilitators, technology) and systems (e.g., conducive schedules, adequate collaborative time, model classrooms) are allocated to support and sustain effective professional learning. Opportunities to practice skills, receive follow-up, feedback, and coaching are provided to support the effectiveness of professional learning. 	
2. Operational	Adequate resources (e.g., substitute teachers, materials, handouts, tools, stipends, facilitators, technology) and systems (e.g., conducive schedules, adequate collaborative time, model classrooms) are in place to support and sustain professional learning.	V
3. Emerging	Some resources and systems are allocated to support and sustain professional learning.	
4. Not Evident	Few, if any, resources and systems are provided to support and sustain professional learning.	

Professional Learning Standard 6 -Monitors and evaluates the impact of professional learning on staff practices and stulearning		
1. Exemplary	Monitoring and evaluating the impact of professional learning on staff practices and increases in student learning occurs extensively. Evaluation results are used to identify and implement processes to extend student learning.	
2. Operational	Monitoring and evaluating the impact of professional learning on staff practices and student learning occurs routinely.	√
3. Emerging	Monitoring and evaluating the impact of professional learning on staff practices occurs sporadically.	
4. Not Evident	Monitoring and evaluating the impact of professional learning on staff practices occurs rarely, if ever.	

2. DATA COLLECTION ANALYSIS

2.4 Family and Community Engagement

Analyze the LEA's data (including sections 2.6) and answer the guiding questions to determine existing trends and patterns that support the identification of needs related to family and community engagement. Complete a data-informed self-rating for each Georgia School Performance Standard (GSPS). See the <u>Family and Community Engagement webinar</u> for additional information and guidance. Visit Georgia's Family Connection Partnership's <u>KIDS COUNT</u> for additional data.

Family and Community Engagement Data

Family and Community Engagement Standard 1 -Creates an environment that welcomes, encourages, and connects fami and community members to the school		
1. Exemplary	 The school has a well-established, inviting learning environment that welcomes, encourages, and connects family and community members to the school. Numerous opportunities are given to family members to become actively engaged in school-related events and improvement efforts as participants, event managers, and workers. 	V
2. Operational	The school has created an environment that welcomes, encourages, and connects family and community members to the school.	
3. Emerging	The school has made some progress toward creating an environment that welcomes, encourages, and connects family and community members to the school.	
4. Not Evident	The school has not created an environment that welcomes, encourages, or connects family and community members to the school.	

Family and Community Engagement Standard 2 -Establishes structures that promote clear and open communication

between the school a	nd stakenolders	
1. Exemplary	Extensive structures that promote clear and open communication between the school and stakeholders have been effectively established and implemented.	√
	Structures are continuously monitored for reliable and interactive communication.	
2. Operational	Most structures that promote clear and open communication between the school and stakeholders have been effectively established and implemented.	
3. Emerging	Some structures that promote clear and open communication between the school and stakeholders exist.	
4. Not Evident	Few, if any, structures that promote clear and open communication between the school and stakeholders exist.	

Family and Community Engagement Data

	Family and Community Engagement Standard 3 -Establishes relationships and decision-making processes that build capacity for family and community engagement in the success of students		
1. Exemplary	 A wide variety of relationships and collaborative decision-making processes (e.g., business partnerships, school councils, parent or family organizations, academic and extra-curricular booster clubs, civic organizations, tutoring services, post-secondary partnerships) are pervasive in promoting student success and well being. Expectations for family and community engagement are embedded in the culture and result in stakeholders being actively involved in decision-making. 		
2. Operational	Numerous relationships and decision-making processes (e.g., business partnerships, school councils, parent or family organizations, academic and extra-curricular booster clubs, civic organizations, tutoring services) effectively build capacity for family and community engagement in the success of students.	~	
3. Emerging	Limited relationships and decision-making processes have been initiated by the school to build capacity for family and community engagement.		
4. Not Evident	Relationships and decision-making processes for families and the community are non-existent, or those that do exist contribute minimally to student success.		

Family and Commustatus to families	nity Engagement Standard 4 -Communicates academic expectations and current student ac	chievement
1. Exemplary	The school staff provides families with ongoing, detailed academic expectations and/or graduation status (e.g., four-year graduation plans, syllabi, academic advisement protocols).	
	Extensive communication related to the current achievement level of individual students is provided (e.g., progress reports, student-led parent conferences, report cards, reading level reports, state test reports, school-based assessment reports, online reporting system).	
2. Operational	The school staff communicates academic expectations and/or graduation status (e.g., four-year graduation plans, syllabi, academic advisement protocols) throughout the year.	\checkmark
	Regular communication related to the current achievement level of individual students is provided (e.g., progress reports, parent conferences, report cards, reading level reports, state test reports, school-based assessment reports, online reporting system).	
3. Emerging	The school staff communicates some academic expectations at the start of the year. Some communication related to the current achievement level of individual students is provided.	
4. Not Evident	The school staff does little to inform families of academic expectations. Little, if any, communication related to the current achievement level of individual students is provided.	

Family and Community Engagement Data

Family and Community Engagement Standard 5 -Develops the capacity of families to use support strategies at home that will enhance academic achievement		
1. Exemplary	The school continually develops the capacity (e.g., parent training, lunch and learn, make-it and take-it) of families to use support strategies at home that will enhance academic achievement.	
2. Operational	The school frequently develops the capacity (e.g., parent training, lunch and learn, make-it and take-it) of families to use support strategies at home that will enhance academic achievement.	~
3. Emerging	The school occasionally develops the capacity of families to use support strategies at home that will enhance academic achievement.	
4. Not Evident	The school seldom, if ever, develops the capacity of families to use support strategies at home that will enhance academic achievement.	

Family and Community Engagement Standard 6 -Connects families with agencies and resources in the communi the needs of students		nity to meet
1. Exemplary	The school has a systematic process in place to connect families with an array of agencies and resources (e.g., Y-Clubs, after-school programs, health and counseling services, community service agencies, civic organizations, tutoring services) to meet the needs of students.	
2. Operational	The school regularly connects families to agencies and resources in the community (e.g., Y-Clubs, after-school programs, health and counseling services, community service agencies, civic organizations, tutoring services) to meet the needs of students.	~
3. Emerging	The school sometimes connects families to agencies and resources in the community to meet the needs of students.	
4. Not Evident	The school does little to connect families with agencies and resources in the community to meet the needs of students.	

2. DATA COLLECTION ANALYSIS

2.5 Supportive Learning Environment

Analyze the LEA's data (including sections 2.6) and answer the guiding questions to determine existing trends and patterns that support the identification of needs related to a supportive learning environment. Complete a data-informed self-rating for each Georgia School Performance Standard (GSPS). Student subgroups with a count of less than 15 are denoted by "TFS" (too few students). See the <u>Supportive Learning Environment webinar</u> for additional information and guidance.

Instruction Standard 1 - Provides a supportive and well-managed environment conducive to learning		
1. Exemplary	A supportive and well-managed environment conducive to learning is evident throughout the school.	
	Students consistently stay on-task and take responsibility for their own actions.	
2. Operational	A supportive and well-managed environment conducive to learning is evident in most classrooms.	\checkmark
3. Emerging	A supportive and well-managed environment conducive to learning is evident in some classrooms.	
4. Not Evident	A supportive and well-managed environment conducive to learning is evident in few, if any, classrooms.	

Instruction Standard 2 - Creates an academically challenging learning environment		
1. Exemplary	Nearly all teachers create an academically challenging, learning environment (e.g., higher-order thinking skills and processes, active student engagement, relevance, collaboration). Students consistently work independently and in teams to solve real-world problems that require advanced effort, decision-making, and critical and creative thinking.	
2. Operational	Most teachers create an academically challenging, learning environment (e.g., higher-order thinking skills and processes, active student engagement, relevance, collaboration).	~
3. Emerging	Some teachers create an academically challenging learning environment.	
4. Not Evident	Few, if any, teachers create an academically challenging learning environment.	

Instruction Standard 8 -Establishes a learning environment that empowers students to actively monitor their own progress		
1. Exemplary	Nearly all students use tools (e.g., rubrics, checklists, exemplars) to actively monitor their own progress. Nearly all students develop a sense of personal responsibility and accountability by engaging in record keeping, self-monitoring, sharing, exhibiting, and self-reflection.	
2. Operational Most students use tools (e.g., rubrics, checklists, exemplars) to actively monitor their own progress.		
3. Emerging	ging Some students use tools to actively monitor their own progress. ✓	
4. Not Evident Few, if any, students use tools to actively monitor their own progress.		

School Culture Standard 1 -Develops, communicates, and implements rules, practices, and procedures to maintain a safe, orderly learning environment		
1. Exemplary Rules, practices, and procedures that maintain a safe, orderly learning environmented are proactively developed, communicated, and consistently implemented school. These rules, practices, and procedures are continually monitored and revironeeded.		V
2. Operational	Rules, practices, and procedures that maintain a safe, orderly learning environment are developed, communicated, and implemented.	
3. Emerging Rules, practices, and procedures are developed and communicated but are ineffective or inconsistently implemented across the school.		
4. Not EvidentRules, practices, and procedures that maintain a safe, orderly, learning environment are not developed nor updated or are poorly communicated.		

School Culture Standard 2 -Establishes a culture of trust and respect that promotes positive interactions and a sense of community		
1. Exemplary	 Extensive evidence (e.g., positive and respectful interactions, appreciation of diversity, tolerance, understanding) exists that a culture of trust and respect has been established. A pervasive commitment to promoting positive interactions and a sense of community is evident. 	
2. Operational	Evidence (e.g., positive and respectful interactions, appreciation of diversity, tolerance, understanding) exists that a culture of trust and respect has been established. A sustained commitment to promoting positive interactions and a sense of community is evident.	√
3. Emerging	Some evidence exists that a culture of trust and respect has been established.A limited commitment to promoting positive interactions and a sense of community is evident.	
4. Not Evident	Little or no evidence exists that a culture of trust and respect has been established. Unresolved conflicts interfere with a sense of community.	

School Culture Standard	School Culture Standard 3 - Establishes a culture that supports the college and career readiness of students		
1. Exemplary Extensive evidence (e.g., advisement, career counseling, transition coaching, high expectations) exists that the beliefs and practices of the school support the college and career readiness of students. The school culture supports addressing individual achievement needs and strengths to prepare students for success.			
2. Operational	Evidence (e.g., advisement, career counseling, transition coaching, high expectations) exists that the beliefs and practices of the school support the college and career readiness of students.	√	
3. Emerging Some evidence exists that the school supports the college and career readiness of students.			
4. Not Evident	Little or no evidence exists that the school supports the college and career readiness of students.		

School Culture Standard 4 - Supports the personal growth and development of students		
1. Exemplary	Exemplary The school staff consistently provides a comprehensive system of support (e.g., counseling, mentoring, advisement, coaching, goal setting, time management, problem solving) to maximize the personal growth and development of nearly all students.	
2. Operational The school staff regularly provides support (e.g., counseling, mentoring, advisen coaching, goal setting, time management, problem solving) to enhance the person growth and development of students.		\checkmark
3. Emerging The school staff sporadically supports the personal growth and development of students.		
4. Not Evident	The school staff does little to support the personal growth and development of students.	

School Culture Standard	School Culture Standard 5 -Recognizes and celebrates achievements and accomplishments of students and staff	
1. Exemplary The school community consistently recognizes and celebrates the achievements and accomplishments of students and staff. The celebrations are publicized within the school and to the community and support		
	the culture of the school.	
2. Operational The school community regularly recognizes and celebrates the achievements and accomplishments of students and staff.		\checkmark
3. Emerging The school community periodically recognizes or celebrates the achievements or accomplishments of students and/or staff.		
4. Not Evident The school community rarely, if ever, recognizes or celebrates the achievements or accomplishments of students or staff.		

Planning and Organization Standard 1 -Shares a common vision and mission that define the school culture and guide the continuous improvement process		
1. Exemplary A common vision and mission have been collaboratively developed and communicated to nearly all stakeholders. The culture of the school has been deeply defined over time by the vision and mission, which are updated as needed. The daily work and practices of staff consistently demonstrate a sustained commitment to continuous improvement.		
2. Operational	A common vision and mission have been developed through a collaborative process and communicated to most stakeholders.	√
	The vision and mission define the culture of the school and guide the continuous improvement process.	
3. Emerging A common vision and mission have been developed by some staff members but have not been effectively communicated so that they guide the continuous improvement process.		
4. Not Evident	A common vision and mission have not been developed or updated or have been developed by a few staff members.	

2. DATA COLLECTION ANALYSIS

2.6 Data Analysis Questions

Analyze the LEA's data and answer the guiding questions to determine existing trends and patterns that support the identification of demographic and financial needs. Student subgroups with a count of less than 15 are denoted by "TFS" (too few students).

What perception data did you use?	Our school used a variety of data to determine trends and patterns for
[examples: student perceptions about school	identification of demographic and financial needs. This includes the most
climate issues (health survey, violence,	recent: GMAS results, MAP benchmark assessment scores, RTI data, ACCESS
prejudice, bullying, etc.); student/parent	data, and daily classroom data to determine student needs and instructional
perceptions about the effectiveness of	information. Parent and student survey data was examined. Instructional
programs or interventions; student	self-assessments, schoolwide needs assessments, professional learning plans,
understanding of relationship of school to	and student achievement summaries were also reviewed and analyzed to guide
career or has an academic plan]	this process of needs assessment and school improvement planning.

What does the perception data tell you?	Based on a cumulative data review, the information indicates a pattern of
(perception data can describe people's	strengths and weaknesses. The data highlights a path of capitalized noted
knowledge, attitudes, beliefs, perceptions,	strengths and generating a plan for improving areas of weaknesses.
competencies; perception data can also	
answer the question "What do people think	
they know, believe, or can do?")	

What process data did you use? (examples:	The team analyzed statewide assessment results, universal screeners and
student participation in school activities,	common assessments to pinpoint overall percentages of student achievement.
sports, clubs, arts; student participation in	Schoolwide data was reviewed and used to target specific areas of need.
special programs such as peer mediation,	Throughout this data review, the leadership team used multiple surveys to
counseling, skills conferences;	discuss, plan, and determine the impact of family and community engagement
parent/student participation in events such	to involve all stakeholders.
as college information meetings and parent	
workshops)	

What does the process data tell you?	The process of reviewing data helped direct the leadership team focus on
(process data describes the way programs are	particular areas of need. The areas of analyzing data, effective leadership and
conducted; provides evidence of participant	professional capacity were noted as strengths. After completing the data
involvement in programs; answers the	collection analysis, we recognized the need for continued improvement in
question "What did you do for whom?")	generating and developing a more supportive learning environment for
	students to take ownership of individualized learning paths and achievement.

What achievement data did you use?	Several modes of achievement data were examined to analyze patterns of
	strengths and weaknesses across all grade levels and subgroups. These include
	the most current: Benchmark MAP growth data, GMAS, ACCESS, common
	assessments in multiple content areas, and progress monitoring results.

What does your achievement data tell you?	The data indicated specific areas of need developing math and science skills for
	all students in grades Kindergarten through Fifth. An overarching need was
	spotlighted in the area of English language arts encompassing all domains.

What demographic data did you use?	Several forms of demographic data were examined. This includes an analysis of
	subgroup achievement results, students receiving intensive interventions and
	noted patterns across demographic domains.

What does the demographic data tell you?	Demographic data results indicate general areas of need in improving student
	growth and achievement for all subgroups in grades K through 5. This was
	highlighted when looking at overall data pertaining to a full system of
	supports. It indicated 44% of K-5 students did not meet projected growth
	goals in reading and 44% did not meet projected growth goals in math
	according to Benchmark 3 MAP data. When examining GMAS scores and
	grade level science data, it was determined that 62% of 5th grade students
	scored level 1 or level 2.

3. NEEDS IDENTIFICATION AND ROOT CAUSE ANALYSIS

3.1 Strengths and Challenges Based on Trends and Patterns

Read the trends and patterns summaries from each section of the data analysis process. Use the information in these summaries to complete 3.2 and 3.3. Using the summaries in 3.1 and other local data, describe the strengths and challenges or answer the guiding questions for each program. Include strengths and challenges related to: a) general program implementation, and b) students and adults involved in or affected by the program. Focus on strengths and challenges that will assist in the identification of needs during 3.2. Watch the <u>Identifying Need webinar</u> for additional information and guidance.

Strengths and Challenges Based on Trends and Patterns

Coherent Instructional:Summarize the	After analyzing the instructional system weaknesses, specific trends were noted
coherent instructional system trends and	in student assessment, providing student feedback, and implementing

teacher, and leader needs?	

IDEA - Special Education, Economically Disadvantaged Children, and English Learners.

Using the summaries in 3.1 and other local data, describe the strengths and challenges or answer the guiding questions for each program. Include strengths and challenges related to: a) general program implementation, and b) students and adults involved in or affected by the program. Focus on strengths and challenges that will assist in the identification of needs during 3.3. Watch the <u>Identifying Need webinar</u> for additional information and guidance.

Strengths A systematic scheduling process is implemented to generate an infrastructure

IDEA - Special Education, Economically Disadvantaged Children, and English Learners.

Using the summaries in 3.1 and other local data, describe the strengths and challenges or answer the guiding questions for each program. Include strengths and challenges related to: a) general program implementation, and b) students and adults involved in or affected by the program. Focus on strengths and challenges that will assist in the identification of needs during 3.3. Watch the <u>Identifying Need webinar</u> for additional information and guidance.

to execute a system of supports for all students. This process is conducted by
analyzing student data, determining specialized supports, evaluating teacher
strengths and ensuring layered instructional models. A flexible schedule
provides opportunities to strengthen core, supplemental, and intensive
instructional deliveries for all students. All teachers and support staff engage in
data driven decision making processes to determine alterations in instructional
plans to meet students' needs. Progress monitoring data is consistently
examined and utilized to guide differentiation, flexible grouping, specialized
instruction, and intervention adaptations. All teachers engage in an ongoing
practice of examining students' present ability levels in correlation with grade
level expectations to design individualized goals. Teachers and administrators
are involved in ongoing professional learning of how to use MAP scores and
tools effectively and efficiently.

Challenges	Fully implementing services and supports for students can be challenging.
	Scheduling service providers to accommodate students' needs throughout the
	day is also difficult when multiple services are required. Providing ample space
	to deliver intervention and instruction to large groups of students can be
	difficult to problem solve. Encouraging parent involvement in meetings and
	conferences as well as enlisting translators or interpreters is taxing for staff
	when participation is limited.

3. NEEDS IDENTIFICATION AND ROOT CAUSE ANALYSIS

3.2 Identification and Prioritization of Overarching Needs

Use the results of 3.1 to identify the overarching needs of the LEA. Determine the priority order of the identified needs based on data, team member and stakeholder knowledge, and answers to questions in the table below. Be sure to address the major program challenges identified in 3.1. Watch the <u>Identifying Need webinar</u> for additional information and guidance.

Overarching Need # 1

Overarching Need	On the MAP Growth assessment, 60% of Kindergarten and 1st Grade students did not meet projected growth goals in English language arts, and 58% of Kindergarten and 1st Grade students did not meet projected growth goals in math.
How severe is the need?	High
Is the need trending better or	Worse
worse over time?	
Can Root Causes be Identified?	Yes
Priority Order	1

Additional Considerations	

Overarching Need # 2

Overarching Need	On the 2023 Science GMAS, 62% of 5th grade students scored Level 1 or Level 2.
How severe is the need?	High
Is the need trending better or	Better
worse over time?	
Can Root Causes be Identified?	Yes
Priority Order	2

Additional Considerations	

3. NEEDS IDENTIFICATION AND ROOT CAUSE ANALYSIS

3.3 Root Cause Analysis

Select the top 2-4 overarching needs from 3.2. Conduct a separate root cause analysis (RCA) for each need. Any RCA tools and resources can be used, but suggestions are available as part of the <u>Identifying Need webinar</u>. After describing the RCA process, complete a table for each selected overarching need.

Overarching Need - On the MAP Growth assessment, 60% of Kindergarten and 1st Grade students did not meet projected growth goals in English language arts, and 58% of Kindergarten and 1st Grade students did not meet projected growth goals in math.

Root Cause # 1

Root Causes to be Addressed	Lack of fidelity in standards-based instruction
This is a root cause and not a	Yes

2. SCHOOL IMPROVEMENT GOALS

2.1 Overarching Need # 1

Overarching Need

Overarching Need as identified in	On the MAP Growth assessment, 60% of Kindergarten and 1st Grade students did not
CNA Section 3.2	meet projected growth goals in English language arts, and 58% of Kindergarten and 1st
	Grade students did not meet projected growth goals in math.
Root Cause # 1	Lack of fidelity in standards-based instruction
Goal	Increase the number of students meeting their projected growth by 7% on MAP Reading
	and MAP Math.

Action Step	Continue training and coaching teachers on the MyView core ELA curriculum throughout the year. School level PLCs will focus on fidelity of implementing standards-based ELA instruction. Administration will monitor fidelity of instruction through observations, managing and monitoring attendance of students and teachers, and analyzing student progress monitoring data. All data for students in Kindergarten through 5th grade will be analyzed and used to group students with similar ELA needs. During small group instruction and a daily 45-minute intervention block, teachers will work with groups to target specific areas of need. Contracted service instructional providers will also be employed to help provide and support the implementation of interventions and supports across all grade levels to students who are struggling to meet growth expectations. Students will also utilize various technology-based programs to help support these interventions and targeted instruction. In Kindergarten and 1st grade, teachers will continue to target deficit ELA skills during small group instruction and the intervention block. Instructional support will use various resources to help improve accuracy and comprehension for students working at all levels of tiered instruction. These resources include evidence/research-based interventions and
Funding Sources	practices. Title I, Part A McKinney-Vento Title III Part A EL Title III Part A Immigrant

2. SCHOOL IMPROVEMENT GOALS

2.2 Overarching Need # 2

Overarching Need

Overarching Need as identified in	On the 2023 Science GMAS, 62% of 5th grade students scored Level 1 or Level 2.
CNA Section 3.2	
Root Cause # 1	There is a lack of direct and explicit K-5 Science standards-based instruction that includes
	vocabulary and project-based, hands-on learning.
Goal	On the Science GMAS, increase the number of 5th grade students scoring Level 3 or Level
	4 by 5%.

Action Step	Science standards for each grade level will be analyzed by all teachers. Kindergarten through 5th grade teachers will develop hands-on lessons targeting grade level science standards. Lessons will consist of exploring science concepts, science specific vocabulary development, building background knowledge, and hands-on learning following the scientific process. Teachers will collaborate with the STEAM lab teacher, computer lab teacher, music teacher, and PE teacher on current units of study to allow for cross curricular integration of science standards when applicable. Contracted instructional service providers will also be employed and used to assist and support the interdisciplinary structure and hands-on nature of this science instruction. Proficiency will be measured by standards-based assessments/rubrics in grades K-2. In grades 3-5, MAP will be used 3 times a year to measure growth. Grade group PLCs will plan together to develop standards-based lesson plans and assessments/rubrics. The school's STEAM Lab teacher will also plan and coordinate interactive STEAM Lab activities to mirror the science concepts and standards being taught in the classroom during these units of study. Student assessments/rubrics will be analyzed at the conclusion
Funding Sources	 during these units of study. Student assessments/rubites will be analyzed at the conclusion of each unit and plans will be developed for remediation of standards for which students have not met proficiency. Classroom teachers will integrate science standards into other subject areas when applicable. Teachers in grades K-5 will have access to a supply of science materials for hands-on experiments/lessons and computer-based programs. Students will utilize technology and devices to help access and use these resources for science lessons and interactive explorations. Title I, Part A

	Effective Leadership
	Professional Capacity
	Family and Community Engagement
	Supportive Learning Environment
Method for Monitoring	Rubrics/Informal Assessments, Lesson Plans, Formal Assessments, GMAS Science Scores
Implementation	
Method for Monitoring	MAP Benchmark scores, GMAS Scores
Effectiveness	
Position/Role Responsible	Administration, Academic Coach, Classroom and Support Teachers/Staff, Contracted
	Service Instructional Providers, Rotation Teachers
Timeline for Implementation	Monthly

What partnerships, if any, with
IHEs, business, Non-Profits,
Community based organizations,
or any private entity with a
demonstrated record of success is
the LEA implementing in carrying
out this action step(s)?

3. REQUIRED QUESTIONS

3.1 Stakeholders, Coordination of Activities, Serving Children, and PQ

Required Questions

1. In developing this plan, briefly describe	Our school sought input from multiple groups of stakeholders. Through the
how the school sought advice from	Colquitt County School System's 2022-2023 Comprehensive Needs
individuals (teachers, staff, other school	Assessment Survey, our school was able to find general concerns of our
leaders, paraprofessionals, specialized	community and educators that were included in the 2 areas of improvement
instructional support personnel, parents,	highlighted in this plan which are: increasing student growth percentages and
community partners, and other	decreasing the achievement gap between subgroups. Additionally, our school
stakeholders).	has continually sought input from our local school governance team during
	the course of the year as plans for improvement are made. Teachers and staff at
	our school discuss needs for improvement at regularly scheduled faculty
	meetings as well; teachers and staff also provide meaningful feedback each year
	by completing required surveys through GADOE. During parent and
	community nights at our school, participants are encouraged to provide input
	regarding school improvement. Surveys are also available for parents to
	complete throughout the year to offer suggestions for improvements. Feedback
	from parent and community meetings, and teacher input provided during
	faculty meetings, PLCs, and school-based data meetings are reflected in the
	data for each of our school's improvement goals. The school administration
	and the data team reviewed the most recent data in order to match action to
	need in this plan.

2. Describe how the school will ensure that	Our school will ensure that low-income and minority children enrolled in the
low-income and minority children enrolled	Title I school are not served at disproportionate rates by ineffective, out of field
in the Title I school are not served at	or inexperienced teachers in a multitude of ways. Our school will partner with
disproportionate rates by ineffective,	postsecondary teacher preparation programs upon request to support
out-of-field, or inexperienced teachers.	pre-service training of potential new educators. Additionally, our school will
	work with our system's human resource department to provide high-quality
	induction experiences for new teachers and to promote teacher leadership
	strategies within our building. Our school will also provide data to monitor
	equitable access in order for our faculty to reflect the needs of our students and
	to alleviate equity gaps.

3. Provide a general description of the Title I	The Title I program offers a variety of services which may include: additional
instructional program being implemented at	teachers and support staff, extra time for instruction, a variety of teaching
this Title I school. Specifically define the	methods and materials, up-to-date technology for students and instruction,
subject areas to be addressed and the	smaller classes and additional training for staff. The specific services that are
instructional strategies/methodologies to be	implemented are based on a comprehensive needs assessment process that
employed to address the identified needs of	involves root cause analysis to identify areas/students in the greatest need.
the most academically at-risk students in the	Once the areas of need are identified school-wide reform strategies are

career counseling to identify student interest	activities take place at various times of the year and at various times of day to
and skills.	provide the most access for students as they move between schools. In the
	middle grades, all Colquitt County students receive opportunities to explore
	future careers and counseling in this process. At the high school level (grades
	9-12), the Colquitt County School System partners with multiple
	post-secondary institutions to provide an increasing number of dual
	enrollment opportunities, college visitation days, and financial aid/ application
	process information.

7. Describe how the school will support	A PBIS discipline system will establish the social and behavioral supports
efforts to reduce the overuse of discipline	students need to grow and excel both socially and academically. This is
practices that remove students from the	achieved through multiple tiers of prevention, intervention, and support that
classroom, specifically addressing the effects	range from school-wide procedures to specialized and individualized
on all subgroups of students.	disciplinary actions. Our School's PBIS discipline system focuses on the
	encouragement of positive behavior, coming from every source of authority
	students come in contact with. Our process includes a data-based decision
	making framework that guides selection, integration, and implementation of

evidence-based practices to improve student outcomes with a focus on
developing and sustaining a proactive and preventive system. This three-tiered
prevention model applies to both academic and behavior instruction and
intervention to meet the needs of all students in a school. Our application of
this model occurs at four levels that are fluid and that are analyzed through
structured problem solving to inform the needs of students, before
interventions are developed, monitored, and altered based upon the needs of
the students.

ADDITIONAL RESPONSES

8. Use the space below to provide additional	
narrative regarding the school's	
improvement plan.
